

FLATTY is a high quality audio wall speaker.

Hidden in an artistic framekork that you can customize with the logo/image you prefer.

The image is interchangeable, you can renew it many times you want.

FLATTY allow you to set up a complete sound system in an elegant and discreet way. You can use it to design a new project, or add it to an existing sound system.

With the "**active**" Bluetooth version you can have music wherever you need without wiring and cables, this version incorporates everything needed to work, rechargeable battery, audio amplifier and Bluetooth receiver.

The "**passive**" version allows you to have the same design and elegance but driven by external amplifiers, controlled by a touch screen to differentiate volume and other options of each zone as desired.

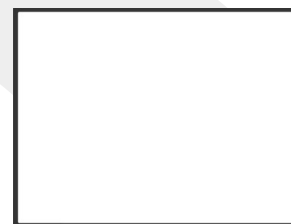

Both versions in the STANDARD and COMPACT models are equipped with a reverberant field control system that will help you attenuate the undesired noise in the room.

FLATTY is available in three size.
custom size on request.

STANDARD 70 x 105cm

COMPACT: 65 x 85 cm

SLIM: 65 x 29 cm
